

Public Notice

The Savoy Fire Department will be conducting live fire training at Village of Savoy owned properties located at 114 W Church Street and 103 W Main Street. Activities will commence on Monday, September 12, 2016 and will be completed by Thanksgiving.

Many of our firefighters will receive training in how to work safely in a burning building. This training will occur on the following dates:

Monday, September 12, 2016 (5-9pm)

Saturday, September 17, 2016

Saturday, October 1, 2016

Saturday, October 22, 2016

Saturday, November 5, 2016

There may be additional dates where activity by the Savoy Fire Department for training purposes may take place on Monday evenings between September 12, 2016 and Thanksgiving 2016. The Village of Savoy and the Savoy Fire Department are working cooperatively to provide this fire training opportunity for our fire service personnel. The Savoy Fire Department is a progressive volunteer department that continues to maintain a strong and recognized reputation throughout the State of Illinois. The ability to conduct live fire training such as this only enhances the skill and training levels of our firefighters.

The live fire training will produce visible smoke from time to time. If you see smoke or fire in this area and there are no emergency crews present, then call 911 immediately.

This is a rare opportunity for our firefighters to obtain this type of training and we ask for your support and patience during this valuable exercise. The public is welcome to come and watch the living fire training sites. We ask that viewers follow the directions of the firefighters on site.

If you have questions regarding the fire training, please contact Assistant Chief Jeremy Leevey or Lieutenant Sam Smith with the Savoy Fire Department by phone at 217-359-5814.
